

# DOUGLAS CONSTRUCTIONS CHOOSE DRAMIX

Dexus Property Group – Warehouse Facility at Larapinta in QLD

Douglas Constructions propose another Dramix steel fibre solution to Dexus Property Group for their new warehouse facility at Larapinta as a faster, cost effective, and overall better solution. The 23,000m<sup>2</sup> warehouse was supplied by Holcim Concrete and poured by Bess Concrete to an outstanding quality in a very short timeframe.

## Technical solution

- Dramix fibre only Jointless slabs
- 150mm thick
- Dramix 3D

## Benefits

Dramix fibre only Jointless slabs eliminate the need for any saw-cuts and potential maintenance issues associated with them. This solution also allowed Bess Concrete to pour the slabs much faster by removing the conventional steel, in many cases pouring two adjacent slabs on the same day.
