

DRAMIX 5D – RAFT SLAB FOUNDATION

Environmental Sustainability Project – Sutherland Shire Council

Observation Deck for a rare migratory bird population – Southern Sydney.

Technical solution

- Dramix 5D
- Raft Design
- Moment Capacity
- No traditional reinforcement

Benefits

Dramix 5D Raft Slab allowed for significant speed-up in Construction, with no prior Steel placement required, the project was poured directly from Concrete Agitator Truck in to Excavator Bucket and placed easily, despite the tricky waterfront location.
