

FRASERS AND MCNAB USE DRAMIX AGAIN

As always, Frasers selected Dramix steel fibres as their slab solution of choice in their most recent project at Archerfield. The tried and tested expert team of McNab, KD Engineers, Kraftur, Neilsens Concrete, and BOSFA, were again selected by Frasers Property to construct the new 27,000m² warehouse at Archerfield, and the experience of all of those players working together has again shone through with another successful project nearing completion.

Developer: Frasers Property Australia
 Builder: McNab
 Engineer: KD Engineering
 Premix Supplier: Neilsens Concrete
 Contractor: Kraftur
