

LAMINEX AT TRADECOAST

Laminex were in need of a brand-new facility, and TradeCoast was the ideal location. After constructing all of the warehouses in this estate, McNab were again entrusted by Bootooloo Property to construct the 27,000m2 warehouse, which sits immediately alongside the Gateway Motorway. Morgan Consulting Engineers were more than happy to specify a Dramix steel fibre solution for the large Jointless slabs on the project, which Kraftur expertly placed, as usual with the tried and tested Neilsens concrete mix. The high-quality finished slabs are perfect for this large facility, which Laminex will be able to use for many years to come.

- Developer: – Bootooloo Property
- Builder: – McNab
- Engineer: – Morgan Consulting Engineers
- Premix Supplier: – Neilsens Concrete
- Contractor: – Kraftur

Technical solution

- Dramix Jointless
