

LARGE CHILLER & FREEZER STORAGE FACILITY

New build, approx 10,000 SM. Warehouse with ambient & controlled temperature used for international air & ocean freight. 2 single level warehouses and cold store industrial buildings. Both buildings have a large warehouse area & 3 level office space.

Technical solution

- Fibre Type – DRAMIX 4D 65/60BG
- Additional Reinforcement – top layer of light mesh
- Constructed joint free and a nominal crack width of 0.25mm
- 40MPa concrete cylinder strength

Benefits

Slab reduction for the same capacity
 Large saw cut free slabs
 Improved durability and elimination of joint damage from hard wheeled forklift
 Reduced long term maintenance
 Fast construction
