

## LARGE WAREHOUSING FACILITY AND CONTAINER YARD

New build, approx 10,000 SM. Warehouse with ambient & controlled temperature used for international air & ocean freight. 2 single level warehouses and cold store industrial buildings. Both buildings have a large warehouse area & 3 level office space.

### Technical solution

- Fibre Type – DRAMIX 4D 65/60BG
- Additional Reinforcement – top layer of light mesh
- Constructed joint free and a nominal crack width of 0.25mm
- 40MPa concrete cylinder strength

### Benefits

- Slab reduction for the same capacity
- Large saw cut free slabs
- Improved durability and elimination of joint damage from hard wheeled forklift and containers
- Reduced long term maintenance
- Fast construction
