

## NORTHLINE SA – UTILISE DRAMIX SOLUTION

The new 27,000sqm Northline facility in Regency Park, South Australia utilised the tried and tested Dramix fibre only jointless solution for the internal slabs. With the external slabs adopting a Dramix Combi Slab, enabling the removal of all saw cuts and all dowelled joints from the pavement. Having no joints makes for the most efficient design with the additional benefit of long term reduced maintenance cost with the removal of costly jointing systems.

### Design Engineers

BOSFA / FMG Engineering

### Contractor

Maranello Concrete Constructions PL

### Technical solution

- Dramix 4D External Heavy Duty Combi Slab
- Dramix 3D Internal Jointless Slab

### Benefits

Increased slab capacity  
Reduced long term maintenance  
No Saw Cuts externally  
No Dowelled joints externally
